Something else — by arrangement
An unusual task — write and we will discuss it.

HOW THE PRICE IS FORMED

Only the stages you need
The quote includes only the stages required. If there is a score, no transcription is needed. Any stage can be ordered on its own.

Full cycle is better value
A full-cycle number costs from 10,000 ₽ per minute; the same stages ordered separately come to about 11,500 ₽.

Depends on the task
Material complexity, deadline, intended use — concert, recording, advertising — and type of client. Discounts for student and amateur ensembles.

Minute of music
The main unit is a minute of finished music. For engraving — a page, for adaptations and part extraction — a number.

Volume discount
5% from 30 minutes of music, 10% from 60 minutes. Totals are rounded: no counting seconds.

Fixed before work starts
Price, scope and deadline are agreed in writing before the start and fixed in the contract.

WHAT A PROJECT COSTS

Hypothetical projects priced with the rates on this page: what is included, how long it takes and what you get.

A 60-minute film music show — ≈ 540,000 ₽

12 numbers of film music, a 30-piece orchestra, video on screen.

Selection and dramaturgy · Transcription of every number · Arrangement for the ensemble · Click and playback, sync to video · Audio versions for approval · Scores and parts, revisions after rehearsal

Timeline: 2.5–3 months · 60 min × 10,000 ₽ – 10% volume discount

A 12-minute film suite — ≈ 120,000 ₽

A concert number for symphony orchestra based on a film score.

Transcription · Arrangement for the orchestra · Click and playback · Score and parts

Timeline: 2–3 weeks · 12 min × 10,000 ₽

An artist's song with orchestra, 4 minutes — ≈ 38,000 ₽

An artist performs with an orchestra; a studio recording exists.

Transcription · Orchestral arrangement · Audio version for approval · Score and parts

Timeline: 7–10 days · 4 min × (2,000 + 7,000) ₽ + audio version 2,000 ₽

A musical for a theatre's orchestra, 20 numbers — ≈ 120,000 ₽

Scores exist, but the theatre has a different orchestra.

Comparing line-ups · Reduction and re-orchestration · Revised and extracted parts · Revisions after rehearsals

Timeline: 3–5 weeks · 20 numbers × 6,000 ₽

Concert version from Logic projects, 60 minutes — ≈ 270,000 ₽

A show's music is written in Logic Pro; a score for live orchestra is needed.

Going through the projects · Notation adjusted to the instruments · Part extraction · Audio version for checking

Timeline: 2–3 months · 60 min × 5,000 ₽ – 10% volume discount

A 100-page score from manuscript — ≈ 60,000 ₽

A concerto for soloist and orchestra in the composer's hand.

Engraving the score · Layout · Proofreading

Timeline: 3–4 weeks · 100 pages × 600 ₽

TERMS OF WORK

50% advance
Work starts after the advance. Projects longer than a month can be paid in stages.

Revisions included
A reasonable amount of revisions is included. If the brief itself changes after approval — line-up, structure, key plan — the rework is quoted separately.

Deadlines
Counted from the moment all source materials and the advance are received.

Balance within 5 working days
Within five working days of delivery, regardless of the premiere date.

What you receive
Score and parts as PDF, playback as stems, click as a separate track. Editable Sibelius and Logic Pro files by separate agreement.

Rights
The base price covers performance by the client. An exclusive licence or full transfer of rights costs extra. An arrangement of someone else's work is a derivative: rights to the original are cleared by the client with the rights holder.

Rates are indicative and do not constitute a public offer. The final price depends on the ensemble, scope, deadline and intended use: concert, recording, touring, advertising. Discounts for student and amateur ensembles. The price is fixed in the contract.
